**"When Rick Finnigan came to us as the owner of Seating Technology, he had done his homework on DJ and hence showed a tremendous amount of trust in us and our DesignBuild process. We found that out early and often while working with Rick. On more than one occasion when asked for selections or the approval of details, he would just tell our project manager to do the right thing, and said, 'I just want you to build me a good building.'"**

Bob Schrock, CEO  
DJ Construction

### History:

- Seating Technology, Inc., founded in 1989, partnered with DJ Construction on two major projects in 2004 and 2005.
- The first project, a 65,000 sq. ft. steel building including office space, became their new Goshen location on Eisenhower Drive South.
- Soon after completion of the first project, Seating Technology purchased Starcraft's upholstery division and came back to DJ to build a similar facility, of 67,650 sq. ft., to house that operation in Topeka.
- Seating Technology, Inc. is an industry leader in RV furniture and a leading supplier of bedding interior fashions and mattresses to the RV industry. As of July 1, 2008, Seating Technology, Inc. operates as a subsidiary of Lippert Components, Inc.
