"My favorite memory in working with the River Oaks church occurred after a presentation of the proposed project to the church body. They displayed excitement and enthusiasm. The trust and appreciation that they expressed to their building team who had worked so hard in developing the education wing was really cool. They even gave me a round of applause after presenting the project."

--Doug Wogoman,
President

History:

- DJ Construction completed a 29,647 square foot addition to River Oaks Community Church, Goshen, in 2008. The two-story addition included 19,350 square feet on the first floor for the church's burgeoning children's ministry, and 10,000 square feet on the second floor for adult classrooms, a conference room, and a small kitchenette.
- DJ also renovated an entire wing at River Oaks, creating a large youth ministry area complete with a café, game room, small group rooms, and large worship area.
