“We look forward to seeing our recent projects at both Dutchmen and Keystone develop into an even stronger relationship with the Thor Group for years to come. The project just completed on North Eisenhower Drive demonstrated our ability to provide quality construction at the competitive pricing required for the manufacturing industry. It also reinforced our commitment to meeting aggressive schedules.”

**–Bob Schrock, CEO
DJ Construction**

History

- In November 2005, DJ completed a 10,000 square foot PDI Building for Dutchmen that includes one rain bay/water test bay and four predelivery inspection bays.
- In 2013, DJ worked with Dutchmen to renovate corporate office space.
- Again in 2013, DJ provided Dutchmen with an approximately 60,000 square foot multi-use complex on North Eisenhower Drive, Goshen, that houses the company’s aluminum fabrication, CNC routing and countertop construction, to name a few. Included in the work is a completely redesigned retention pond drainage system, fencing and employee parking, with the purpose of greatly improved factory and delivery traffic flow.
