**“I really enjoyed our partnership with Middlebury Church of the Brethren. The work in making the move from the downtown location to this new site was filled with challenges but was so well navigated by the church. The expansion was rewarding because of the way the original building design had incorporated plans for future growth.”**

–Doug Wogoman,  
President  
DJ Construction

## History:

- In 1995, Middlebury Church of the Brethren sold its downtown property and selected DJ Construction to design & build their new facility on CR 10, north of Middlebury.
- In 2003, the church again hired DJ and basically doubled their size with an 18,000 sq. ft. addition to match the finishes of the new facility.
- Don Weirich served as a very effective and efficient representative for the church on both projects, a huge asset for the church.
