"We here at DJ have been really fortunate to have had the opportunity to work with Paul Chrispyn on the construction of the original facility at Greene Road many years ago, and more recently with Kim Coleman as he has expanded the Monteith brand in Goshen and Middlebury. We have also benefited from the quality service that Monteith has provided to us on our trucks and equipment over the years."

--Doug Wogoman,
President, DJ

History:

- In 1966, Paul Chrispyn asked DJ founder Don Schrock to build a "showcase design service station" at the corner of Greene Rd. and US 33. Today that building is Monteith Tire, operated by Kim Coleman. DJ expanded the service center and several other portions of that complex in 1993.
- DJ built a second Monteith Tire location on the south side of Goshen in 1998. To help meet the increasing demands of automotive service needs in that area, DJ added onto that building in 2004.
- A third Monteith Tire, in combination with NAPA Auto Parts – Jenkins Automotive, was built in Middlebury in 2008. All three centers are part of the re-named Monteith's Best One Tire and Auto Care group.
