"DJ first started working with American Millwork in 1989 when we cut in an OH door opening. Vaughn Nickell was the owner then and a joy to work with. In 1993, he brought DJ back to do an 18,880 sq. ft. plant and warehouse addition. Other major projects included filling in the courtyard with 29,392 sq. ft. of much needed production space in 1994."

JC Schrock,
Vice-President,
DJ Construction

History:

- Located on Beck Drive in Elkhart, American Millwork has been producing hardwood mouldings for the residential housing industry for over 30 years.
- DJ added a two story facility to the plant in 1995 to provide an employee break room on the first floor with production offices and meeting space on the second floor.
- In 2001, DJ Construction was the DesignBuilder for a 37,050 square foot steel building addition, enabling American Millwork to further expand its production capacities.
