"I remember getting the call from Clif after the fire and meeting with him at the Shipshewana plant to survey the damage and to begin to plan how to best get production restarted. I especially remember Clif's resolve and the determination of his employees to get production going again. It was exciting to be part of the work at LaGrange to replace the lost facility in Shipshewana."

**-Lydell Troyer, VP
DJ Construction**

History:

- Mastercraft, founded in the 1970s, and DJ Construction have a history that spans as far back as 1997, beginning with a Shipshewana showroom and offices, a 13,000 square foot addition, and later, a 35,000 square foot manufacturing plant.
- After a 2003 fire destroyed most of the Shipshewana factory, Mastercraft repurposed a LaGrange plant, calling in DJ to renovate.
- DJ repaired the exterior and remodeled the interior of a Victorian era home Mastercraft planned to use for an added showroom and office space in LaGrange.
- Mastercraft is known as the world's largest maker of RV furniture and also produces fine furniture for the home.
