History:

- DJ's partnership with Hubbard Hill, a retirement community in Elkhart & sponsored by the Missionary Church North Central District, began in 1996 when DJ built a new wing of approximately 7,500 sq. ft. and 9 new living units to their assisted living facility.
- In 2002, the two companies embarked on a multi-faceted project that included an 18 apartment assisted living wing, a 48 bed nursing wing, an 18 private bed Alzheimer wing, and a spacious chapel. The DJ team took extra precautions to ensure residents' safety and not interrupt their daily routines.
- Also in 2002, DJ helped Hubbard Hill expand "The Village" community with new duplexes. Each unit ranged from 1,421 sq. ft. to 1,664 sq. ft. with a garage, kitchen, living room, two bedrooms, two baths, laundry and four seasons rooms.
- DJ's Service Group served Hubbard Hill from 2004-2010 on a number of projects, including the "Angel Walk," a pathway filled with gardens, water elements, and resting & visiting areas.
- In 2010, the two companies completed at 24,770 sq. ft. major renovation that included a new wellness facility, a 42-ft. veranda, sitting areas, massage therapy room, and office area. Other updates include the activity lounges and corridors in the residential areas and dining room, library, and bistro. The expanded dining room has a fine dining feel with high ceilings, polished wood partitions, and bronzed oil light fixtures. The library features surrounding built-in shelves, window seats, and a gas fireplace. The bistro's interior has a unique wrought iron ceiling cloud, and the bistro also connects to an outdoor patio area.

"Our relationship with Hubbard Hill Estates which began in 1996 has grown through three outstanding leaders and a significant project with each of them. Eleanor Hatfield with the first Assisted Living addition, Brian Miller on the major 'West Wing' expansion in 2002 and Patrick Pingel with the Wellness addition and upgrades for the Dining area, bistro and core resident areas. The culture and values that these leaders brought to the organization were part of the many special and exciting aspects of our relationship with Hubbard Hill. The staff & their commitment to care for their residents was another common trait that made working on these projects such a blessing for us at DJ."

JC Schrock, Vice-President
DJ Construction
